Address
Zinzira, Keraniganj, Dhaka

EDUCATION

BSc. in CSE 2021
University of Asia Pacific

LANGUAGE

- English (Fluent)
- Bengali (Fluent)

OBJECTIVE

To secure a challenging and rewarding Junior Web Developer position in a growth-oriented company, where I can utilize my technical skills and passion for web development to contribute to the design and development of cutting-edge web applications, while continuously learning and growing in the field.

WORK EXPERIENCE

**Junior Web Developer
- IIdea Informatics**   **July 2021 -**

My tasks there are mainly to make the sites dynamic and user-friendly. But I have also engaged in many core functionalities of various apps. For that, I built many service providers, models, migrations, and many other core services of Laravel. But the most I liked working there was on making the sites dynamic and AJAX-friendly.
And the most challenging things I have faced there are queues and polymorphic relationships. Overall, so far, it has been a very good learning experience.

MY SKILLS & EXPERTISE

Programming	JavaScript, PHP (Intermediate Level) Java (Basic Level, Current Obsession)
Database	MySQL (Intermediate Level)
Framework and Libraries	**ReactJs, VueJs** (Basic Level) **PHP, Laravel** (Intermediate Level) **Express, NextJs** (Basic Level)
Other Mention-able Skills	Git, Shell Scripting (Basic Level)
